Dear Walmart: Stand Up Against Torture of Labor Leaders

As the largest buyer of Bangladeshi-made clothing, you must ensure Bangladeshi garment workers who face poverty wages and abusive conditions can stand up for their rights without risking harassment, imprisonment and torture. Tell your suppliers that have instigated false charges against Kalpona Akter, Babul Akhter, Aminul Islam, and other labor leaders that those charges must be dropped; that the officers responsible for torturing these individuals must be held accountable; and that labor rights defenders like the Bangladesh Center for Worker Solidarity must be allowed to operate freely.
